

Week 3-4

SCENARIO

A university manages different types of people. Every person has:

- name
- ID

However, different people introduce themselves differently.

A Student says:
"I am a student."

A Lecturer says:
"I am a lecturer."

INSTRUCTION

1. At the project root, create a directory name "tutorial_3-4"
2. Change directory to tutorial_3-4
3. Add the following files
 - 3.1. Main.java
 - 3.2. Student.java
 - 3.3. Person.java
 - 3.4. Lecturer.java

ACTIVITY

1. Complete the modules

person.java

```
class Person {  
  
    private _____ name;  
    private _____ id;  
  
    public _____( _____ name, _____ id){  
        this.name = _____;  
        this.id = _____;  
    }  
  
    _____ String getName(){  
        return name;  
    }  
  
    _____ String getId(){  
        return id;  
    }  
  
    _____ void introduce(){  
        System._____("I am a person");  
    }  
}
```

student.java

```
class _____ extends Person {  
  
    public Student(String name, String id) {  
        super(name, id);  
    }  
  
    @Override  
    public void _____() {  
        System.out.println("I am a student.");  
    }  
}
```

main.java

```
public class Main {  
  
    public static void main(String[] args) {  
  
        Person p1 = new _____;  
        Person p2 = new _____;  
  
        p1.introduce();  
        p2.introduce();  
    }  
}
```

```
=====
EXPECTED OUTPUT
=====
```

```
I am a person.
I am a student.
I am a lecturer.
```
