

# Week 6

## Employee and Lecturer

### SCENARIO

Every employee has:

- ID
- Name

A lecturer is also an employee, but additionally teaches a subject.

### INSTRUCTION

1. Login to you GitHub & select your OOP repository
2. Create a new directory called "week\_6"
3. Move into the week\_6 directory & create the following java files:

**3.1. main.Java**

**3.2. employee.java**

**3.3. lecturer.java**

### ACTIVITY

1. Complete the code template given
2. Add another variable:
  - 2.1. Department

```
public class _____ {

    protected _____ id;
    protected _____ name;

    public _____(_____ id, _____ name){
        this.id = _____;
        this.name = _____;
    }

    public void displayInfo(){

        _____("Employee ID : " + _____);
        _____("Name : " + _____);

    }
}

public class _____ Employee{

    private String subject;

    public Lecturer(String id,String name,_____ subject){

        super(_____, _____);
        this.subject = _____;

    }

    public void displaySubject(){

        _____("Subject : " + _____);

    }
}
```

### EXPECTED OUTPUT

Employee ID : L100

Name : Dr Ahmad

Subject : Java Programming

Department : Faculty of Information Technology
